

Home:-

Kalindi Enterprises is one of the Premier Merchant Exporter and have a Sister Concern Manufacturing Unit engaged in Cast Iron & S.G. (Spheroid Graphite) Iron (NODULER Cast Iron or DUCTILE Iron) Casting, Aluminum Casting & Brass Casting and Parts located in Rajkot / Jamnagar (Gujarat).

We are equipped with State-of-art technology and laboratories to cast various components with stringent metallurgical and quality requirements.

Profile:-

We have one of the premier Foundry in India, producing high quality Cast Iron & S.G. (Spheroid Graphite) Iron (NODULER Cast Iron or DUCTILE Iron) Casting, Investment Casting, Aluminum Casting & Brass Casting and Parts for customer around the world. We are equipped with State-of-art technology, Melting shop, Molding shop, Core shop, Fettling & Grinding facility and Chemical plus Physical laboratory to cast and test components with stringent metallurgical and quality requirements.

The installed annual production capacity is 2200 MT. We have a capacity to cast a single component weight range from 0.050 Kg to 250 Kg in all Grades as par IS and ASTM Standards.

We at Kalindi Enterprise commit ourselves for processing and supplying product that would give complete satisfaction to customers through agreed quality on committed time & place.

Manufacturing Facilities:-

- Fully automatic load controlled Induction furnace.
- Automatic machine molding facility.
- Semi automatic sand plant.
- Fully equipped laboratory to certify products as per the international standard.
- Online carbon silicon analyzer for casting grade control during Melting.
- Microscope with image analyzer to check and analyze microstructure Of Casting.
- Spectrometer for detailed chemical analysis (Out sourcing-NSIC).

- With an Annual installed capacity of 2200 MT Couple with Quality infrastructure (Casting)
- Weight range: 0.050 Kg to 250 Kg. (CI, SGI Casting)
- Weight range: 0.50 Gram to 150 Kg (Aluminum/Brass)
- Weight range: 0.50 Kg. to 100 Kg (Investment Casting)

Product:--

Kalindi Enterprise is catering various domains including

- ✓ Automobile Industries
- ✓ Agriculture Industries
- ✓ Marine Industries
- ✓ Locomotive Industries
- ✓ Power Sector
- ✓ Home & Interior Decoration

Our current production includes Valve Body, Gear box housing, Auto parts, Crank shafts, Agriculture parts and Motor body work as per clients provided drawing or pattern.

C.I. CASTING:-

S.G.I. CASTING:-

ALUMINIUM CASTING :-

Policy:-

- ❖ It is our policy to produce casting and Spectacle Frame to meet your individual requirements.
- ❖ Good surface finish, accurate shape and Dimensional control.
- ❖ To upgrade company's resources to meet customers ever changing expectations.
- ❖ Right material delivery at the right time.

Objective :-

- ❖ To optimize input and product cost.
- ❖ To conserve natural resources.

Our Goal:-

- ❖ Our goal is to produce exceptional and innovative Cast Iron & Steel Graded Iron Casting, Aluminum Casting & Brass Parts products

Vision:-

- ❖ Become the globally preferred supplier for Cast Iron & Steel Graded Iron Casting, Aluminum Casting & Brass Parts Solutions.
- ❖ We are in forefront in developing new and challenging products for our customers.

Mission:-

- ❖ Grow the Employees, associates and Supplier.
- ❖ Ensure Total customer satisfaction.

Values:-

- ❖ Quality, Integrity and respect.
- ❖ Encourage Entrepreneurship, Ownership and Accountability.
- ❖ Commitment to the environment and community.

History:-

- ❖ 10 Years of proven track record for cost competitiveness learning's from Indian Market.
